Full Text of Listing:
The Department of Economics at NIU (http://www.niu.edu/econ/Econ_main/index.shtml) anticipates making a tenure-track appointment at the assistant professor level in econometrics to start in August 2012. The primary need of the department is for an econometrician who specializes in microeconometrics and who can teach econometrics at the undergraduate and graduate levels. A Ph.D. in economics at the time of appointment is required. We are seeking an outstanding economist with a proven ability to carry out high quality research and to be an effective teacher. The successful candidate will be expected to engage in research leading to publications in top quality economics journals, to teach undergraduate and graduate economics courses, to supervise doctoral students, and to actively seek funds to support his or her research.

The department and the university are committed to the principle of diversity and encourage applications from candidates who can contribute to this objective.

Submit Instructions:
The application must include a hard copy of resume or curriculum vitae, samples of research, as well as three current letters of reference, and must be sent to Recruiting Committee, Department of Economics, Northern Illinois University, DeKalb, IL 60115. Completed applications received by November 28, 2011 will be given preference. A pre-employment criminal background investigation is required. AA/EEO Institution.
