FINRA (Financial Industry Regulatory Authority)
Economic Research Analyst

We Work to Protect Investors. Join our Team.

FINRA is seeking a well-qualified individual for our Economic Research Analyst (Job Number: 002960) opening in Washington, DC. To be considered for this position, please submit your resume through our career site at http://www.finra.org/careers - no phone calls, please.

JOB DESCRIPTION: The primary purpose of the analyst will be to identify, collect, organize and analyze data in pursuit of the mission of the Office of the Chief Economist while providing technical and administrative leadership in delivering solutions to regulators.

ESSENTIAL JOB FUNCTIONS:
- Provide technical support and analyses of, and monitor developments in, the financial markets, and specifically the intersection of regulation and policy with financial and securities markets;
- Provide to FINRA staff data, information and reporting on a wide range of issues related to the
financial products and services marketplace, including regulatory research, regulatory and policy developments;
- Summarize for FINRA staff findings and research in written products of various types, including tables, charts, short summaries, as well as longer analytical policy memos and reports;
- Lead and contribute to the development, production and preparation of economic analyses, written materials, including briefing or issue papers, and memoranda for senior management and members of the financial;
- Develop expertise in data availability, extraction and manipulation in order to facilitate economic analysis in support of rulemaking and monitoring;
- Responsible for collecting, encoding, testing, cleaning, and combining data from multiple systems and documenting complex procedures;
- Devises/modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results.

JOB QUALIFICATIONS: Education/Experience Requirements:
- Bachelor's degree in economics, finance, statistics, or equivalent with 3 years of related experience; Advanced degree preferred.
- Must demonstrate competence in extracting financial and securities-related data from sources including databases (using Oracle or SQL) and big data environments.
- Experience combining data from multiple sources and in assessing data quality, consistency, and completeness.
- Candidates must have the ability to apply academic research to real-world issues and present concise explanations of complex analyses.
- The ideal candidate will possess a strong empirical background and excellent interpersonal skills.
- We seek applicants who have training in econometrics, mathematical statistics, or both, as well as good computer skills.
- In addition, most positions require training in economics through the intermediate theory level.

WORKING CONDITIONS:
- Normal working conditions.
- Extended hours may be required.

APPLICATION PROCEDURE: To be considered for this position, please submit a cover letter and resume. A writing sample may be required as part of the submission.

The information provided above has been designed to indicate the general nature and level of work of the position. It is not a comprehensive inventory of all duties, responsibilities and qualifications required.

Please note: If the "Apply Now" button on a job board posting does not take you directly to the FINRA Careers site, enter http://www.finra.org/careers into your browser to reach our site directly.

FINRA strives to make our career site accessible to all users. If you need a disability-related accommodation for completing the application process, please contact FINRA's accommodation
FURTHER INFORMATION: In addition to a competitive salary, comprehensive health and welfare benefits, and incentive compensation, FINRA offers immediate participation and vesting in a 401(k) plan with company match. You will also be eligible for participation in an additional FINRA-funded retirement contribution, our tuition reimbursement program and many other benefits. If you would like to contribute to our important mission and work collegially in a professional organization that values intelligence, integrity and initiative, consider a career with FINRA.

Please note: FINRA's Code of Conduct imposes restrictions on employees' investments and requires financial disclosures that are uniquely related to our role as a securities regulator. As standard practice, employees must also complete FINRA's Employee Confidentiality and Invention Assignment Agreement and comply with the company's policy on nepotism.

ABOUT FINRA: The Financial Industry Regulatory Authority (FINRA) is an independent, non-governmental regulator for all securities firms doing business with the public in the United States. FINRA works to protect investors and maintain market integrity in a public-private partnership with the Securities and Exchange Commission (SEC), while also benefiting from the SEC's oversight. In its role as investor guardian, FINRA is informed, but not influenced, by the industry that it regulates. FINRA's independent regulation plays a critical role in America's financial system-all at no cost to taxpayers.

FINRA's independent regulation plays a critical role in America's financial system and touches virtually every aspect of the securities business-from registering and educating industry participants to examining securities firms; writing rules; enforcing those rules and the federal securities laws; informing and educating the investing public; providing trade reporting and other industry utilities; and administering the largest dispute resolution forum for investors and registered firms.

All told, FINRA oversees more than 4,100 brokerage firms, more than 160,000 branch offices and almost 636,000 registered securities representatives. We also perform market regulation under contract for the major U.S. stock markets, including the New York Stock Exchange, NYSE Arca, NYSE MKT, The NASDAQ Stock Market and the EDGA and EDGX Exchanges.

In today's fast-paced and complex global economy, FINRA is a trusted advocate for investors, dedicated to keeping the markets fair and proactively addressing emerging regulatory issues before they harm investors or the markets.

FINRA has approximately 3,400 employees and operates from Washington, DC, and New York, NY, with 20 regional offices around the country.

Find out more about us and how we work-and view our current openings-at http://www.finra.org/careers
SEARCH FIRM REPRESENTATIVES: Please be advised that FINRA is not seeking assistance or accepting unsolicited resumes from search firms for this employment opportunity. Regardless of past practice, a valid written agreement and task order must be in place before any resumes are submitted to FINRA. All resumes submitted by search firms to any employee at FINRA without a valid written agreement and task order in place will be deemed the sole property of FINRA and no fee will be paid in the event that person is hired by FINRA.

FINRA is an Equal Opportunity and Affirmative Action Employer.

All qualified applicants will receive consideration for employment without regard to age, citizenship status, color, disability, marital status, national origin, race, religion, sex, sexual orientation, gender identity, veteran status or any other classification protected by federal state or local laws as appropriate, or upon the protected status of the person's relatives, friends or associates.

FINRA abides by the requirements of 41 CFR 60-741.5(a). This regulation prohibits discrimination against qualified individuals on the basis of disability, and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified individuals with disabilities.

FINRA abides by the requirements of 41 CFR 60-300.5(a). This regulation prohibits discrimination against qualified protected veterans, and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans.

FINRA (Financial Industry Regulatory Authority)
Economist

We Work to Protect Investors. Join our Team.

FINRA is seeking a well-qualified individual for our Economist (Job Number: 3153) opening in Washington, DC or New York, NY. To be considered for this position, please submit your resume through our career site at http://www.finra.org/careers - no phone calls, please.

JOB DESCRIPTION: The primary duties of this position are to engage in statistical, econometric and financial analysis projects to evaluate the risks, costs and impacts of market practice and regulatory alternatives in support a variety of departments across FINRA.

ESSENTIAL JOB FUNCTIONS: The Economist in this position will work closely with various
offices across FINRA that have statistical and economic needs. The Economist will be responsible for working on a variety of projects:
- Work closely with subject matter experts, analyze and evaluate (on a quantitative and qualitative basis) the effectiveness of market and regulatory programs and operations;
- Gather, develop and synthesize data about securities markets and market participants to determine the efficacy and efficiency of current or projected projects and programs;
- In consultation with senior economists, will develop methodologies to provide calculations and analysis of relevant statistics for economic impact assessment;
- Prepare analyses, charts, graphs, reports and briefing materials and present findings to senior leaders across FINRA;
- Manage and maintain the book of work for regulatory activities under development across FINRA;
- Model and analyze data to provide solutions and answers in a variety of engagements;
- Work with middle and senior managers across the organization to assess their needs for economic analysis and design programs to meet them;
- Conduct research in support of FINRA's mission;
- Exercise independent judgment in developing models to determine and track member firm and market behavior;
- Write and publish reports on various economic and financial topics;
- Represent the Office of the Chief Economist in internal and industry-wide conferences, seminars, presentations;
- Publish research results for industry and public review;

Other projects as needed.

JOB QUALIFICATIONS: Education/Experience Requirements: Master's degree in economics, finance, statistics or a similar degree; PhD preferred. The candidate should be able to demonstrate experience in econometric modeling, statistical analysis, data collection and manipulation, programming and writing reports. A minimum of 3 - 4 years of direct experience is required.

The candidate must be comfortable working with a variety of people with varying skill and knowledge levels. The candidate must also be able to communicate well, both orally and in writing. The candidate must have the ability to handle multiple tasks under tight deadlines. We are seeking a self-starter who is comfortable working independently.

WORKING CONDITIONS: Regular office conditions; some travel may be required.

APPLICATION PROCEDURE: To be considered for this position, please submit a cover letter and resume. A writing sample may be required as part of the submission.

The information provided above has been designed to indicate the general nature and level of work of the position. It is not a comprehensive inventory of all duties, responsibilities and qualifications required.

Please note: If the "Apply Now" button on a job board posting does not take you directly to the
FINRA Careers site, enter http://www.finra.org/careers into your browser to reach our site directly.

FINRA strives to make our career site accessible to all users. If you need a disability-related accommodation for completing the application process, please contact FINRA's accommodation help line at 240.386.4865. Please note that this number is exclusively for inquiries regarding application accommodations.

In addition to a competitive salary, comprehensive health and welfare benefits, and incentive compensation, FINRA offers immediate participation and vesting in a 401(k) plan with company match. You will also be eligible for participation in an additional FINRA-funded retirement contribution, our tuition reimbursement program and many other benefits. If you would like to contribute to our important mission and work collegially in a professional organization that values intelligence, integrity and initiative, consider a career with FINRA.

IMPORTANT INFORMATION: FINRA's Code of Conduct imposes restrictions on employees' investments and requires financial disclosures that are uniquely related to our role as a securities regulator. FINRA employees are required to disclose to FINRA all brokerage accounts that they maintain, and those in which they control trading or have a financial interest (including any trust account of which they are a trustee or beneficiary and all accounts of a spouse, domestic partner or minor child who lives with the employee) and to authorize their broker-dealers to provide FINRA with duplicate statements for all of those accounts. All of those accounts are subject to the Code's investment and securities account restrictions, and new employees must comply with those investment restrictions-including disposing of any security issued by a company on FINRA's Prohibited Company List or obtaining a written waiver from their Executive Vice President-by the date they begin employment with FINRA. Employees may only maintain securities accounts that must be disclosed to FINRA at one or more securities firms that provide an electronic feed (e-feed) of data to FINRA, and must move securities accounts from other securities firms to a firm that provides an e-feed within three months of beginning employment.

As standard practice, employees must also execute FINRA's Employee Confidentiality and Invention Assignment Agreement without qualification or modification and comply with the company's policy on nepotism.

ABOUT FINRA: The Financial Industry Regulatory Authority (FINRA) is an independent, non-governmental regulator for all securities firms doing business with the public in the United States. FINRA works to protect investors and maintain market integrity in a public-private partnership with the Securities and Exchange Commission (SEC), while also benefiting from the SEC's oversight.    Many university departments and other institutions have purchased site licenses covering all of the journals in a particular network. If you want to subscribe to any of the SSRN journals, you may be able to do so without charge by first checking to see if your institution currently has a site license.

   To do this please click on any of the following URLs. Instructions for joining the site are included on these pages.
   - Accounting Research Network
   - Cognitive Science Network
   - Corporate Governance Network
   - Economics Research Network
   - Entrepreneurship Research & Policy Network
   - Financial Economics Network
   - Health Economics Network
   - Information Systems & eBusiness Network
   - Legal Scholarship Network
   - Management Research Network
   - Political Science Network
   - Social Insurance Research Network
   - Classics Research Network
   - English & American Literature Research Network
   - Philosophy Research Network

   If your institution or department is not listed as a site, we would be happy to work with you to set one up. Please contact site@ssrn.com for more information.

2. Individual membership (for those not covered by a site subscription), complete our web subscription form at our secure site: http://www.ssrn.com/subscribe

FINANCIAL HARDSHIP
If you are undergoing financial hardship and believe you cannot pay for a journal, please send a detailed explanation to Subscribe@SSRN.com
